I. Project Updates

Navel Orangeworm Sterile Insect Technique

The Navel Orangeworm (NOW) Pilot Project (Project) utilizes NOW sterile insect technique (SIT) moths obtained from the United States Department of Agriculture (USDA) Phoenix, Arizona Rearing Facility. Quality Control (QC) tests are performed on every shipment of NOW SIT moths used for aerial releases.

Aerial releases for 2022 are scheduled to begin on March 15, 2022, with one magazine of approximately 750,000 moths being released over Zones 1 and 3. The start date for a second magazine of approximately 750,000 moths has not been decided yet.

Navel Orangeworm Trapping

The NOW trapping program began May 5, 2020, with an Area Wide Project site that included a total of four orchards in Fresno County: two 640-acre almond orchards and two 640-acre pistachio orchards. On May 17, 2021, the Area Wide Project site expanded to include four additional orchards in Fresno County: one 640-acre almond orchard, one 640-acre pistachio orchard, one 160-acre almond orchard, and one 160-acre pistachio orchard. All eight orchards, designated as Zones 1 through 8, continue to be serviced on a weekly basis. Listed below are any circumstances which prevented regular servicing in 2022:

- Week of January 7: No traps were serviced due to severe weather on site
- Week of January 14: No traps were serviced in Zones 1 – 4 due to staffing issues
- Week of February 25: No traps were serviced in Zone 1 due to pesticide applications on site
- Week of March 4: No traps were serviced in Zone 2 due to pesticide applications on site

II. Project Design

The NOW Area Wide Project site includes eight orchards located in Fresno County, identified as Zones 1 through 8. Listed below is information related to each orchard:

| Zone # | Crop Type | Acres | Aerial SIT Release/Non-Release | Date Added to Area Wide Project |
|--------|-----------|-------|--------------------------------|---------------------------------|
| Zone 1 | Pistachio | 640 | Release | May 5, 2020 |
| Zone 2 | Pistachio | 640 | Non-Release | May 5, 2020 |
| Zone 3 | Almond | 640 | Release | May 5, 2020 |
| Zone 4 | Almond | 640 | Non-Release | May 5, 2020 |
| Zone 5 | Pistachio | 640 | Release | May 17, 2021 |

| | | | | |
|--------|-----------|-----|-------------|--------------|
| Zone 6 | Pistachio | 160 | Non-Release | May 17, 2021 |
| Zone 7 | Almond | 640 | Release | May 17, 2021 |
| Zone 8 | Almond | 160 | Non-Release | May 17, 2021 |

Each zone has a trap site ratio of approximately 1 trap site per 18 acres for a total of 36 trap sites for each 640-acre zone and 9 trap sites for each 160-acre zone. Trap sites include two traps: one trap baited with NOW pheromone/PPO lures and one trap baited with pistachio meal. All traps are serviced on a weekly basis. Servicing includes collecting trap bottoms and replacing with new trap bottoms. Bait/lure changes occur once a month, and trap tops are replaced as needed. Counts are performed on each trap collected to determine number of wild versus sterile captures and male versus female captures.

III. Trap Results for Week Ending on March 4, 2022

Zone 1

Zone 1 is a pistachio orchard where aerial NOW SIT releases will be conducted. A total of **72** traps were collected from Zone 1 on Monday, February 28, with **36** pistachio meal baited traps and **36** pheromone/PPO lure traps.

| Zone 1 - Pistachio | | | | | | | |
|---|----------------------------------|--------------|-----------|------------|----------------|-------------|--------------|
