

**COTTON PEST CONTROL PROGRAM – BIWEEKLY REPORT**  
54 YEARS OF SERVICE TO COTTON GROWERS

State of California  
5100 Douglas Avenue  
Shafter, CA 93263  
Department of Food & Agriculture  
Plant Health and Pest Prevention Services  
Integrated Pest Control Branch

Phone: (661) 395-2914  
Fax: (661) 399-1601

Period Ending August 27, 2021

**Pink Bollworm Activities**

**Program Update:**

Statewide Cotton Seed Bug Survey

A statewide survey for the cotton pest *Oxycarenus hyalinipennis*, also known as the cotton seed bug, will be conducted by the California Department of Food and Agriculture during the period of September 1 – December 31, 2021. The survey will include a visual aspect as well as sampling a small number of bolls in each area. To learn more, please attend a virtual meeting of the California Cotton Pest Control Board on Wednesday, September 1, 2021 at 10:00 am to discuss the Cotton Seed Bug Survey. This meeting is open to the public. Agenda can be found on our website at: <https://www.cdfa.ca.gov/plant/Meetings/>

Meeting Date/Time: **Wednesday, September 1, 2021 at 10:00 a.m.**

Meeting ID: 828 1355 2577

Passcode: an2#0Trb

Silverleaf Whitefly Survey

Silverleaf whitefly (SLWF) surveys began June 28, 2021 with Cotton Pest Control (CPC) Program (Program) personnel collecting random samples from sites at ten percent of all cotton fields in each cotton growing county in the San Joaquin Valley (SJV). The fourth SLWF report is out this week alongside this report.

**Sacramento Valley:**

The Program has confirmed cotton acreages for Northern California counties. The total mapped cotton acreage for Northern California is 810 acres (down from 1,890 acres in 2020) with 481 acres in Colusa County (up from 287 acres in 2020), 244 acres in Glenn County (down from 1,366 acres in 2020), and 85 acres in Sutter County (down from 234 acres in 2020).

Program personnel have placed a total of four traps in the Colusa County, two traps in Glenn County, and one trap in Sutter County.

**San Joaquin Valley:**

Cotton mapping for the San Joaquin Valley was completed as of Thursday, July 1. The current total

mapped acreage for the SJV is 94,922 acres (down from 171,080 acres in 2020). The breakdown of cotton acreage is 21,977 acres in Fresno County (down from 34,500 acres in 2020), 8,291 acres in Kern County (down from 10,850 acres in 2020), 40,805 acres in Kings County (down from 86,750 acres in 2020), 17,668 acres in Merced County (down from 31,750 acres in 2020), 249 acres in Madera County (down from 430 acres in 2020), and 5,932 acres in Tulare County (down from 6,725 acres in 2020).

Program personnel have placed and are currently servicing 224 traps in Fresno County, 96 traps in Kern County, 328 traps in Kings County, 6 traps in Madera County, 225 traps in Merced County, and 73 traps in Tulare County. Traps are being serviced on a biweekly basis, which will continue through the mid-October.

The surveying and mapping of Pima acreage began on Monday, July 26, 2021. The total preliminary acreage for the San Joaquin Valley is 79,983 acres with 7,537 acres in Kern County, 35,330 acres in Kings County, 580 acres in Tulare County, 15,059 acres in Merced County, 21,258 acres in Fresno County, and 219 acres in Madera County.

There were no pink bollworm moths (PBW) detected in any of these counties last year. Therefore, there are currently no plans to release sterile moths in cotton fields in the SJV this year.

### **Southern California:**

Mapping and trapping in Southern California is conducted by CA Department of Food and Agriculture California Border Protection Station personnel.

Cotton mapping for Southern California was completed the week of May 17, 2021. The current total mapped cotton acreage for the 2021 season in Southern California is 8,695 acres (up from 6,865 acres in 2020). There are 6,690 acres of cotton in Riverside County (up from 4,935 acres in 2020) and 2,005 acres of cotton in Imperial County (up from 1,930 acres in 2020).

Trap placement in Southern California was completed the week of June 7, 2021. Program personnel have placed and are currently servicing 171 traps in Southern California with 29 traps in Imperial County and 142 traps in Riverside County. Traps are being serviced on a weekly basis which will continue through October.
