FINAL STATEMENT OF REASONS
DEPARTMENT OF FOOD AND AGRICULTURE
SUBMISSION OF REGULATIONS PERTAINING TO
Section 3286, Tomato Yellow Leaf Curl Virus Exterior Quarantine
Title 3, California Code of Regulations

Update of Initial Statement of Reasons/Policy Statement Overview
The initial statement of reasons/policy statement overview is still valid.

Summary of and Response to Objections or Comments Regarding the Regulations
No public hearing was held or requested. The summary of and response to each objection or comment received during the written comment period are as follows:

No written comments were received during the public comment period.

Mandate on Local Agencies and School Districts
The Department of Food and Agriculture has determined that Section 3286 does not impose a new mandate on local agencies or school districts. The local agencies that had a duty to enforce these regulations, the California County Agricultural Commissioner’s offices, no longer have such a duty. Therefore, no reimbursements are required for Section 3286 under Section 17561 of the Government Code.

The Department also has determined that no savings or increased costs to any state agency, no reimbursable costs or savings under Part 7 (commencing with Section 17500) of Division 4 of the Government Code to local agencies or school districts, no nondiscretionary costs or savings to local agencies or school districts, and no costs or savings in federal funding to the State will result from the proposed action.
The Department has determined that the cost impact of the changes in the regulations on a representative private person or business is not expected to be significantly adverse. The Department has also determined that this action will not have a significant adverse economic impact on housing costs or California businesses, including the ability of California businesses to compete with businesses in other states.

Assessment
The Department has made an assessment that this amendment to the regulations would not (1) create or eliminate jobs within California, (2) create new business or eliminate existing businesses within California, or (3) affect the expansion of businesses currently doing business within California.

Alternatives Considered
The Department of Food and Agriculture has determined that no alternative considered would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action.
