

DEPARTMENT OF FOOD AND AGRICULTURE
Title 3 of the California Code of Regulations
Section 3591.30 Queensland Fruit Fly Eradication Area
Section 3445 Queensland Fruit Fly Interior Quarantine

**Notice of Proposed Rulemaking
45 – Day Notice**

The California Department of Food and Agriculture (Department) proposes to make permanent the emergency adoption to Title 3, California Code of Regulations (CCR) Section 3591.30 Queensland Fruit Fly Eradication Area and Title 3 CCR Section 3445 Queensland Fruit Fly Interior Quarantine which creates an eradication area and an interior quarantine for Queensland Fruit Fly (QFF).

PUBLIC HEARING

A public hearing is not scheduled. However, a public hearing will be held if any interested person, or his or her duly authorized representative, submits a written request for a public hearing to the Department no later than 15 days prior to the close of the written comment period.

WRITTEN COMMENT PERIOD

Any interested person or his or her authorized representative may submit written comments relevant to the proposed regulations to the Department. Comments may be submitted by USPS, FAX or email. The written comment period closes on December 19, 2023. The Department will consider only comments received at the Department offices by that date or postmarked no later than December 19, 2023. Submit comments to:

Erin Lovig, Senior Environmental Scientist Supervisor California
Department of Food and Agriculture 1220 N St,
Sacramento, CA 95814
Permits@cdfa.ca.gov
916.403.6650
916.651.2900 (FAX)

Questions regarding the substance of the proposed regulation should be directed to Erin Lovig. In her absence, you may contact Dean Kelch at (916) 261-9252 or dean.kelch@cdfa.ca.gov, FAX number (916) 651-2900.

Unless there are substantial changes to the proposed regulations prior to adoption, the Department may adopt the proposal as set forth in this notice without further notice to the public. Following the public hearing, if one is requested, or following the written comment period if none is requested, the Department, at its own motion, or at the instance of any interested person, may adopt the proposal substantially as set forth without further notice.

AUTHORITY

The Department proposes to adopt Section 3445 and Section 3591.30 pursuant to the authority vested by Sections 407, 5301, 5302, and 5322 of the Food and Agricultural Code.

REFERENCE

The Department proposes this action to implement, interpret and make specific Sections 407, 5301, 5302, 5322, 5761, 5762, 5763, and 5764 of the Food and Agricultural Code.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

The specific purpose of adopting CCR Section 3445 Queensland Fruit Fly Interior Quarantine and Section 3591.30 Queensland Fruit Fly Eradication Area is to make permanent the eradication area and interior quarantine for QFF approved on September 12, 2023.

EXISTING LAWS & REGULATIONS

Existing law, FAC Section 407, provides that the Secretary may adopt such regulations as are reasonably necessary to carry out the provisions of this code that the Secretary is directed or authorized to administer or enforce.

Existing law, FAC Section 5301, provides that the Secretary may establish, maintain, and enforce such quarantine regulations as they deem necessary to protect the agricultural industry of this state from pests. The regulations may establish a quarantine at the boundaries of this state or elsewhere within the state.

Existing law, FAC Section 5302, provides that the Secretary may make and enforce such regulations as they deem necessary to prevent any plant or thing which is, or is liable to be, infested or infected by, or which might act as a carrier of, any pest, from passing over any quarantine line which is established and proclaimed pursuant to this division.

Existing law, FAC Section 5322, provides that the Secretary may establish, maintain, and enforce quarantine, eradication, and such other regulations as are in their opinion necessary to circumscribe and exterminate or prevent the spread of any pest that is described in FAC Section 5321.

Existing law, FAC Section 5761, provides that the Secretary may proclaim any portion of the state to be an eradication area with respect to the pest, prescribe the boundaries of such area, and name the pest and the hosts of the pest which are known to exist within the area, together with the means or methods which are to be used in the eradication or control of such pest.

Existing law, FAC Section 5762, provides that the Secretary may proclaim any pest with respect to which an eradication area has been proclaimed, and any stages of the pest, its hosts and carriers, and any premises, plants, and things infested or infected or exposed to infestation or infection with such pest or its hosts or carriers, within such area,

are public nuisances, which are subject to all laws and remedies which relate to the prevention and abatement of public nuisances.

Existing law, FAC Section 5763, provides that the Secretary, or the commissioner acting under the supervision and direction of the director, in a summary manner, may disinfect or take such other action, including removal or destruction, with reference to any such public nuisance, which he thinks is necessary.

Existing law, FAC Section 5764, provides that if an eradication area has been proclaimed with respect to a species of fruit flies and the removal of host plants of such species is involved, the director may enter into an agreement with the owner of such host plants to remove and replace them with suitable nursery stock in lieu of treatment.

Expenditures, if any, allocated for the replacement nursery stock shall not exceed an amount which is budgeted for the purpose or approved by the Director of Finance.

ANTICIPATED BENEFITS OF THE PROPOSED AMENDMENT

This regulation is necessary to prevent the spread of QFF to un-infested areas of the State. The regulation benefits industries (nursery, fruit for domestic use and exports, packing facilities), the environment (urban landscapes), and the overall California economy by preventing the spread of QFF.

The adoption of this regulation benefits the citrus, stone fruits, and tomato (nursery, fruit for domestic use and exports, packing facilities) and the environment (urban landscapes) by providing the Department an eradication program to prevent the artificial spread of the QFF over short and long distances.

The California, national and international consumers of California citrus, stone fruits, and tomato benefit by having high quality produce available at lower cost. It is assumed that any increases in production costs will ultimately be passed on the consumer.

The adoption of this regulation benefits homeowners who grow their own host fruits for consumption and host material which is planted as ornamentals in various rural and urban landscapes.

The adoption of this regulation may benefit homeowners who grow host material for consumption and/or ornamentals in various rural and urban landscapes. By providing a basis to prevent infestation with QFF and thereby preventing damage to hosts, the regulation eliminates any future need for hosts to be treated to mitigate infestations of QFF.

There is no existing, comparable federal regulations or statute regulating the intrastate movement of QFF.

There are no known specific benefits to worker safety or the health of California residents.

EVALUATION OF INCONSISTENCY / INCOMPATIBILITY WITH EXISTING STATE REGULATIONS

The Department considered any other possible regulations addressing QFF, and it found that these are the proposed amendments are the only regulations dealing with this subject, and the Department is the only State agency which can designate these eradication areas for plant pests. As required by Government Code Section 11346.5(a)(3)(D), the Department has conducted an evaluation of Sections 3445 and 3591.30 and has determined that it is not inconsistent or incompatible with existing state regulations.

CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA)

Prior to conducting any action authorized by this regulation, the Department shall comply with the California Environmental Quality Act of 1970 (Public Resources Code Section 21000 et. seq. as amended) and the State CEQA Guidelines (Title 14 California Code of Regulations Section 15000 et. seq.).

DISCLOSURES REGARDING THE PROPOSED ACTION

The Department has made the following initial determinations:

Mandate on local agencies or school districts: None.

Cost or savings to any state agency: Compliance activities are currently being performed by existing state staff throughout quarantine areas within the State. The Department is currently monitoring for pests, and thus there is no change to the cost due to these regulations. The Department has determined that no savings or increased costs to any state agency and no costs or savings in federal funding to the State will result from the adoption of 3445 and of Section 3591.30. The amendment of this regulation would have no fiscal impact on the Department.

Cost to any local agency or school district which must be reimbursed in accordance with Government Code sections 17500 through 17630: None and no nondiscretionary costs or savings to local agencies or school districts.

Other nondiscretionary cost or savings imposed on local agencies: None.

Cost or savings in federal funding to the state: None.

Cost impacts on a representative private person or business: The adoption of 3445 and Section 3591.30. will provide authority for the Department to conduct eradication and quarantine activities against QFF and there are no known private sector cost impacts.

The agency is not aware of any cost impacts that a representative person or business would necessarily incur in reasonable compliance with the proposed action.

Significant, statewide adverse economic impact directly affecting businesses, including the ability of California businesses to compete with businesses in other states: The cost impacts are expected to be none and minimal/non-consequential. The Department makes the initial determination that the proposed action will not have a significant, statewide adverse economic impact.

Significant effect on housing costs: None

Small business determination: The proposed action will not affect small business because compliance activities are currently being performed by existing state staff throughout quarantine areas within the State without any impact on small business.

RESULTS OF THE ECONOMIC IMPACT ANALYSIS / ASSESSMENT

The Department has concluded that the adoption of Section 3445 and Section 3591.30 (1) will have no significant impact on the creation or elimination of jobs in the State of California, (2) will have no impact on the creation or elimination of businesses within the State of California, (3) will have no impact on the expansion of businesses within the State of California, (4) is expected to benefit the health and welfare of California residents, (5) is expected to benefit the state's environment, and (6) is not expected to benefit workers' safety.

The health and welfare of California residents: The proposed action will benefit the health and welfare of California residents by preventing increased costs to the consumers of host materials and increased pesticide usage.

The state's environment: The proposed action will benefit the environment (urban landscapes) by providing the Department an eradication program to prevent the artificial spread of the QFF over short and long distances.

CONSIDERATION OF ALTERNATIVES

The Department must determine that no reasonable alternative it considered or that has otherwise been identified and brought to its attention would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.

The Department invites interested persons to present alternatives during the written comment period.

AVAILABILITY OF STATEMENT OF REASONS, TEXT OF PROPOSED REGULATIONS, AND RULEMAKING FILE

The Department has prepared an initial statement of reasons for the proposed action, and has made available all the information upon which its proposal is based and the express terms of the proposed action. The Department has posted the information regarding this proposed regulatory action on its Internet website (www.cdfa.ca.gov/plant/Regulations.html). A copy of the initial statement of reasons and the proposed regulations in underline and strikeout form may be obtained upon request. The location of the information on which the proposal is based may also be obtained upon request. In addition, the final statement of reasons will be available upon request. Requests should be directed to the contact named herein.

AVAILABILITY OF CHANGED OR MODIFIED TEXT

After the comment period and considering all timely and relevant comments received, the Department may adopt the proposed regulations substantially as described in this notice. If the Department makes modifications which are sufficiently related to the originally proposed text, it will make the modified text (with the changes clearly indicated) available to the public for at least 15 days before the Department adopts the regulations as revised. Any person interested may obtain a copy of said regulations prior to the date of adoption by contacting the agency officer named herein. The Department will accept written comments on the modified regulations for 15 days after the date on which they are made available.

AVAILABILITY OF THE FINAL STATEMENT OF REASONS

Upon its completion, copies of the Final Statement of Reasons may be obtained by contacting the agency officer named herein.
