

PESTICIDE USE LABELING REQUIREMENTS

Section 6602. Title 3 of the California Administrative Code states:

“6602. Availability of Labeling.

A copy of the registered labeling that allows the manner in which the pesticide is being used shall be available at each use site.”

The lures for oriental fruit fly and melon fly contain dibrom. Dibrom product labels and material safety data sheets (MSDS) are available from the county agricultural commissioner. The dibrom product label, the Special Local Need (SLN) registration and the MSDS must be in the possession of each trapper at the time the wick is baited. The SLN document is reprinted on the following pages. MSDS sheets are available through the CDFA office in Van Nuys.
