

Vegetable and Melon Crops

California continued as the leading fresh market vegetable producing state in 2010, accounting for 43 percent of the U.S. harvested area, 49 percent of national production, and 48 percent of value for the 24 selected vegetables and melons estimated.

Fresh market production increased for asparagus, celery, chili peppers, cucumbers, fresh tomatoes, pumpkins, Romaine lettuce, spring onions and watermelon. Fresh vegetable crops with decreased production included artichokes, bell peppers, broccoli, cabbage, cantaloupes, carrots, cauliflower, garlic, honeydew, head and leaf lettuce, snap beans, spinach, squash, summer storage and non-storage onions and sweet corn.

California also led the nation in processing vegetable production during 2010, with 26 percent of the U.S. harvested acreage, 71 percent of national production and 56 percent of the total value for the eight processed vegetables estimated.

Total value of California's 2010 fresh and processing vegetable and melon production was \$6.9 billion, down from 2009's revised total of \$7.6 billion. Lettuce remained the leading vegetable crop in value of production, at \$1.6 billion, followed by tomatoes with \$1.3 billion.

Vegetable crops that had value increases were asparagus, chili peppers, fresh carrots, fresh snap beans, fresh tomatoes, garlic, leaf lettuce, processing spinach, spring and summer storage onions, squash and watermelon. Crops that had decreased value included agaricus mushrooms, artichokes, bell peppers, broccoli, cabbage, cantaloupe, cauliflower, celery, fresh cucumbers, fresh spinach, honeydew, sweet corn, leaf and Romaine lettuce, processing carrots, processing tomatoes, pumpkins and summer non-storage onions.

California's cash receipts for vegetables ranked No. 1 in the nation and accounted for 35.5 percent of the U.S. total. Valued at \$6.9 billion, vegetables represented 20.8 percent of the state's total cash income from agriculture in 2010.

According to the USDA Economic Research Service, per capita use of vegetables, melons, potatoes, sweet potatoes, pulse crops and mushrooms in the United States increased from 418 pounds in 2009 to 421 pounds in 2010.

Fresh market consumption per capita in 2010 was 170 pounds, 1 percent higher than in 2009. Utilization increased for asparagus, bell peppers, cabbage, carrots, cauliflower, eggplant, lettuce, onions, pumpkins, radishes, snap beans, tomatoes and watermelon. Declining utilization was observed for broccoli, garlic, honeydew melon, spinach and squash.

Per capita consumption of U.S. processing vegetables decreased 2 percent from 122 pounds in 2009 to 120 pounds in 2010. Processing vegetables whose utilization increased in 2010 included green lima beans, processing tomatoes and snap beans. Consumption decreased for beets, chili peppers, cucumbers, dehydrated onion, green peas, processed cabbage, processed sweet corn and spinach.

Notable Increases in Production:

Fresh Market Cucumbers.....	28%
Chili Peppers.....	27%
Pumpkins.....	26%
Watermelon.....	16%
Romaine Lettuce.....	14%

Notable Decreases in Production:

Artichokes.....	16%
Processing Spinach.....	16%
Cauliflower.....	15%
Processing Onions.....	14%
Fresh Spinach.....	13%

¹ The processed price is based on equivalent returns at the processing plant door. The fresh market price is at the point of first sale.

² Includes both fresh marketing and processing vegetables.

³ Estimates discontinued in 2002.

⁴ Estimates began in 2000 and discontinued in 2002.

⁵ Includes fresh and processed. Production includes quantity harvested, but not marketed because of loss during storage (shrinkage): 2000 to 2009 — 250,000 cwt. Storage loss amounts are excluded when computing total value. Includes some quantities not marketed and excluded in computing value.

⁶ Estimates began in 2000.

⁷ Included in summer storage onions.

⁸ Estimates began in 1929, but were reinitiated in 2000 after being discontinued for nine years.

⁹ Estimates began in 2002.

¹⁰ Miscellaneous vegetables and melons include: Green lima beans for processing, oriental vegetables, green peas, etc. The crops added in 2000 and discontinued in 2002 are excluded from the 2000 and 2001 miscellaneous totals.
